2016 District Artist Competition Rules

This District Artist (formally Electronic Imaging) Competition is a precursor to PPA's International Photographic Competition; the international competition is a world-renowned photographic competition, where entries are evaluated against a standard of excellence in final image execution combined with the artistic skills of the entrant. **(For more information go to ppa.com/district-competition.)**

PPA members are eligible to earn PPA Seals of Approval. When an image bearing a Seal of Approval is submitted to the PPA International Photographic Competition, Master Artist category, an Exhibition Merit is earned towards the Master Artist Degree. These rules pertain to images created by traditional photographic processes, original art as well as those captured and/or manipulated electronically with a digital camera or scanner.

NOTES REGARDING THE MASTER ARTIST CATEGORY

The Artist competition is judged using different criteria than the Photographic Open (PO). In PO, just the final image result is considered when applying a score. With Artist, the final result is a factor, but the execution of technique and degree of difficulty are also considered. Guide images are encouraged to help the judges understand the process used and techniques involved in creating the final image. Techniques may be electronic or traditional (actual print for example) or a combination thereof.

An image that may be worthy of Merit in Artist, may not be so in PO if the final image did not require significant artistic expertise to accomplish the result. Use of technique plays a major factor in the awarding of Seals of Approval or Merits in this category.

All exhibition merits awarded in Artist category are credited towards the Master Artist degree.
